

Peoples Climate Movement
(www.peoplesclimate.org)

April 29, 2017

The People’s Climate Movement is a project of dozens of organizations working together to solve the climate crisis. It started with the historic People’s Climate March on the eve of the UN Climate Summit in September 2014 when 400,000 people from every walk of life marched through the streets of New York City demanding climate action.
