Dominican Sisters in the United States*

Pioneering Women of the Past

1830

“We will not agree to such a tragedy for we know it was God who called us to religious life. Father Wilson secured the approval of the Holy See for us and as long as the community is faithful to the purposes for which it was organized, it cannot be disbanded without the consent of the same community. Best of all the sisters are happy in their religious vocation and joyous in the service of their God.”
